

Dear FCC

Let me tell what a pleasure it been not having unwanted calls.
Even at dinner time.

If you change your policy it will cost most of us more money again.
because we will just have to pay the phone company for caller ID
so we are not bothered by the unwanted calls. If you really think
about it teller marketers prey on the weak. Those poor people are
the suckers that fall for the unwanted services. I hope this helps
so all us can still enjoy dinner time .
